

These are the last photos of the sanitary facilities that have been built in record time.

The first photo is in the Ternura y Amor School, the second one is Raul Andrade School, the third one is Geronimo Carrion School, the fourth one is Coronel Luis Larrea School, and the last one is Corcino Duran School. These 5 sanitary facilities will be finished in 3 weeks and immediately we will start to build the other ones.

We are very pleased to see the kids enjoying their safe water.

A rotary hug for everybody.
